EDUCATION

- **Parul Institute of Engineering and Technology** Vadodara, Gujarat
B.Tech in Computer Science and Engineering (CGPA: 8.4) *Jul 2024 – May 2028*
- **Sr Public School** Orai, Uttar Pradesh
Class XII (74%) *Mar 2024*
- **VSB Education Centre** Orai, Uttar Pradesh
Class X (93%) *Mar 2022*

TECHNICAL SKILLS

Programming: Python, Java, C, JavaScript, PL/SQL

Frontend Development: HTML5, CSS3, JavaScript, React.js, Tailwind CSS

Backend Development: Flask, Django, Node.js

AI / ML and Computer Vision: Machine Learning, OpenCV, MediaPipe, NumPy, Pandas, Matplotlib

Databases and Data Handling: MySQL, PostgreSQL, JSON (Data Collection)

Frameworks and Libraries: Pygame, OpenCV.js, Prisma ORM

Cloud and Tools: AWS, Git, GitHub, Vercel

Domains: IoT, Gesture Recognition, Healthcare Technology, Full Stack Development, AI-powered Applications

PROJECTS

- **Traveloop – AI Powered Travel Planning Platform:** Developed a full-stack AI-powered travel planning SaaS platform enabling personalized multi-city itinerary generation, budget tracking, destination discovery, and collaborative trip management. Implemented interactive dashboards, AI itinerary recommendations, live travel maps, expense analytics, and responsive modern UI with advanced animations. Tech Stack: Next.js, React, TypeScript, Tailwind CSS, Node.js, PostgreSQL, Prisma ORM, OpenAI API, Mapbox API
- **Healthcare Monitor Web Application:** Developed a touchless healthcare monitoring system with gesture-based navigation. Implemented emergency alerts using facial expressions and tracked vital signs including pulse, temperature, and blood pressure. Tech Stack: HTML, CSS, JavaScript, Computer Vision
- **Gesture Controlled Racing Game:** Built a real-time hand gesture-controlled racing game using MediaPipe for hand tracking and OpenCV for video processing. Tech Stack: Python, OpenCV, MediaPipe, Pygame
- **Pregnancy and Symptom Tracker Web Application:** Created a pregnancy health tracking web application with stage-wise symptom guidance and daily water intake monitoring. Tech Stack: HTML, CSS
- **Touchless Chart Navigator:** Built a touchless healthcare chart navigation system during a hackathon using gesture recognition and computer vision for hands-free interaction. Tech Stack: HTML, CSS, JavaScript, OpenCV.js, Web Speech API
Live Project

CERTIFICATIONS

- **Project Manager Job Simulation:** Siemens Mobility (Forage), Jan 2026. Completed practical tasks in developing Key Performance Indicators (KPIs) and managing project dashboards.
- **AWS Certified Machine Learning – Specialty:** Amazon Web Services, Oct 2025
- **Python Programming:** IBM, Jul 2025
- **Information Technology Specialist – JavaScript:** Certiport (Pearson VUE), Apr 2025

- **Information Technology Specialist – HTML and CSS:** Certiport (Pearson VUE), Feb 2025
- **Introduction to Prompt Engineering with GitHub Copilot:** Microsoft (Simplilearn SkillUp), Dec 2025

HACKATHON EXPERIENCE

- **AI/ML Hackathon 2.0 – Team Lead:** Led a 3-member team in a 36-hour hackathon to build a hands-free hospital interface using gesture-based controls. Developed the frontend using HTML, CSS, JavaScript, Web Speech API, and OpenCV.js.
- **Hack2026 AI Skill Event – Participant:** Participated in Hack2026 Hackathon organized at Parul University, Vadodara, where developed an AI-based Student Verification Documentation System to automate and improve student document verification processes. Collaborated in a fast-paced team environment and applied AI concepts to build efficient verification workflows.
